Kasco Profile

Kasco IT Co., Ltd. is one of the leading software and IT solutions provider in the fields of Logistics and Supply Chain Management in Thailand. The company was originally setup as an IT and software development division of Kasco Co., Ltd., which is the major importers/suppliers of car radios and electronic equipments for automotive industries in Thailand (Customers of Kasco Co., Ltd. includes GM, Volvo, Ford, Isuzu, Mercedes Benz, etc.) .

In year 2000, Kasco Co., Ltd. had expanded the businesses to provide software development and IT outsourcing services to international customers in USA. Kasco Software, Inc. was then founded with sales office in Los Angeles, California, while maintaining the core development and engineering teams in Bangkok, Thailand.

While working with many big automotive players and international customers, the founders have seen the needs of using IT solutions for Logistics and Supply Chain Management for all sizes of businesses in Thailand market. Kasco IT Co., Ltd. was then officially founded as a separated entity in March 2004 with the mission to provider completed solutions for Logistics/SCM solutions in Thailand ranging from Warehouse Management System (WMS), Transportation Management System (TMS), as well as Traceability System using Barcode and RFID equipments to Point-of-Sales solutions. From then, Kasco IT have provided IT solutions to varieties of enterprises and businesses in different industries such as 3PL (Third Party Logistics Provider), Automotive, Foods and Chemicals, Medical, Electronics and Hi-tech sectors.
